WordPress Developer with over **7 years** of agency experience building custom websites. Working with an agency allows me to visualize projects on a wider scale, understanding how individual technical builds fit into a brand's broader digital strategy. Collaborating closely with designers, project managers, and strategists constantly improves my communication skills, streamlines project handoffs, and ensures we deliver cohesive, high-performance web solutions.

Professional Skills

WordPress Development: Custom Themes, Beaver Builder, Elementor, WPBakery, WooCommerce, ACF, LearnDash, WPML, Gravity Forms
Frontend: HTML, CSS, SASS/LESS, JavaScript, jQuery, AJAX, Gulp
Backend & Integrations: PHP, MySQL, phpMyAdmin, API Integration, HubSpot, Pardot
SEO & Analytics: Technical SEO, Local SEO, Google Search Console, Google Analytics, Rank Math, Yoast SEO
Hosting & Deployment: cPanel, FTP, WP Engine, RunCloud, Git/GitHub
Design & Collaboration: Figma, Zeplin, Adobe XD, Adobe Photoshop, Canva
Multimedia: Adobe Premiere Pro, After Effects

Work History

Wordpress Developer

Apr 2026 - Present

KMA Webdesign (Remote)

- Build and maintain responsive WordPress and Wix websites for agency clients with Beaver Builder, from design handoff to launch.
- Deliver 4-6 client site builds and updates per month, handling revisions, cross-browser QA, and launch checklists.
- Support local SEO for clients through on-page optimization

WordPress Developer

Dec 2025 - May 2026

Digital King (Remote)

- Built and optimized client WordPress sites in Elementor, applying on-page SEO best practices with Rank Math and Yoast SEO.
- Monitored and fixed indexing and technical SEO issues in Google Search Console across 7 client sites, contributing to 40-80% organic traffic growth.

Frontend Developer

Aug 2022 - Aug 2025

Huemor Designs LLC (Remote)

- Developed 50+ custom WordPress websites from Figma and Zeplin designs using Beaver Builder and WPBakery, delivering pixel-accurate, responsive builds.
- Integrated Gravity Forms with HubSpot and Pardot so client leads flowed directly into their marketing automation.
- Collaborated with designers, project managers, and strategists to launch agency projects on schedule, with clean handoffs and fewer revision rounds.
- Applied technical SEO at launch with Yoast SEO and Google Search Console, so sites launched indexed and search-ready.
- Streamlined front-end workflow with SASS/LESS, Gulp, and Git, and deployed sites to WP Engine, RunCloud, and cPanel.

WordPress Developer

Apr 2019 - Aug 2022

Linkage Web Development (On-site)

- Developed custom WordPress themes with ACF, giving clients flexible, easy-to-edit page layouts.
- Built WooCommerce stores and LearnDash e-learning sites, extending functionality with Gravity Forms.
- Converted Photoshop designs into responsive HTML, CSS, and LESS, and deployed sites via cPanel and FTP.

Education & Certification

Bachelors of Science in Information Technology , University of Baguio - 2019
